

Ceridian Managed Payroll

“ISS' payroll outsourcing to Ceridian has delivered on all of the key drivers and is an undoubted success.”

Richard Bishop-Laggett
HR Services and
Development Director,
ISS

A Managed Payroll Solution

Paying your people accurately and on time is essential for ensuring your business runs smoothly and your people stay motivated.

Ceridian's Outsourced Managed Payroll Service offers you an efficient and cost-effective way to pay your people, while freeing you to focus on core business activities.

A managed payroll service – what's the business case?

Outsourcing your payroll to a specialist provider will free you to focus on more strategic areas of your employee management, such as recruitment, reward and employee development, making sure you have the right people to help you achieve and sustain success.

With our service, you benefit from the knowledge and experience of our IPP qualified payroll professionals, so you know you're offering your employees the fastest, most efficient service.

And our accuracy rates are consistently above 99%, which is hard to match with even the most reliable in-house systems.

Greater control over your business costs

You can also manage your costs more effectively. Because we use our own systems to manage your payroll, you won't have the extra IT costs of maintaining or updating any software.

Key Features

- Over 99% accuracy
- Full disaster recovery
- Complete business continuity
- Fully scalable
- Centralise all your payrolls
- Electronic filing of In-Year and Tax Year End returns
- Legislative compliance
- Saves you time on administration

Improved business continuity

Using our service means you can focus on developing your business without having to worry about increasing your overheads. You can add or remove employees from the payroll at any time, and whether you have 10 or 10,000 employees, you benefit from the same high level of service and support.

You can even centralise all your payrolls, which is ideal if you have a number of different sites or if you frequently take on seasonal and part-time staff that are paid separately from your other employees

What's more you'll always be up to date with the very latest legislation. So you'll save even more time and won't have to worry about checking for changes.

For instance, we've been filing Tax Year Ends electronically for over 4 years, as part of our service – making sure all our customers meet the new HMRC guidelines well before they come into force.

And with our secure service centres and full disaster recovery, you'll have complete peace of mind that your confidential payroll data is in safe hands.

“ We felt that the experience and resources of a specialist payroll provider would offer additional resilience which no in-house department could achieve. ”

**Andy Haywood HR,
Systems Manager,
ASDA**

How does our service work?

We offer a high quality and cost-effective managed payroll service that integrates seamlessly with your organisation. We can help you stay compliant, pay your people on time and meet your HMRC obligations.

You choose how much we do for you, and what you still want to control in-house. Then you simply send us your data and our IPP qualified consultants will process the payroll at one of our dedicated service centres - arranging for your people to be paid via your chosen method. Our advanced processing system means we can sustain the most competitive accuracy levels for your payroll and easily adapt to any changes in your business. Leaving you to focus on the core activities that add real value to your business.

A service that meets your needs

Any organisation can benefit from our service. Our expert consultants will work with you to determine the processes that best meet your specific business objectives, and we can also offer tailored Change Management to make sure you maximise the benefits of outsourcing your payroll.

A dedicated Account Manager will then proactively manage the relationship with you to ensure you continue to get the very best from our service.

Also our experts will always be on-hand to offer a fast, helpful response to any questions you have about your payroll.

A business partner you can trust

With Ceridian you also get a strategic business partner that can help you in every area of your business.

We can look after all your employee administration (from recruitment and new starters through to absence and leavers) with our HR Administration service.

Our Business Intelligence tool can then turn that data into detailed management information that will help you add real value to your business.

While our Employee Assistance Programmes can make sure you stay an employer of choice and help increase commitment among your employees.

You can also take greater control over your employee expenses, and reduce processing costs by 65% with our Managed Expenses service.

Why choose Ceridian?

- We have over 40 years' experience developing and delivering innovative payroll solutions
- We serve one in eight corporate employees in the UK.
- Around the world, Ceridian experts look after 25 million people on behalf of 110,000 businesses of all shapes and sizes.
